

## Welcome to Term 3, 2020!

Welcome back to Term 3! We have been busy over the holidays redesigning our classroom spaces for the students, as well as planning our teaching and learning programmes. This term we welcomed Kirsty to our teaching team.

This term Wharite will be exploring a range of Science activities during Investigation time, such as Forces and Movement with magnets, as well as Electrical Circuits. They are also exploring radiology, by looking closely at x-rays of bones and skeletons. Wharite students continue with daily Literacy and Maths workshops with Whaea Rochelle (Mon-Wed) and Whaea Kirsty (Thur-Fri). It is wonderful to see and hear their happy voices when they have achieved a learning goal!

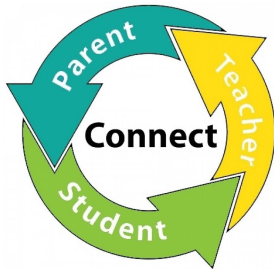

Maharara also continue with their daily Literacy and Maths workshops to meet their Hero goals. Alongside this they are learning NZ Sign Language and Te Reo Māori online. A new VEX Robotics kit has sparked excitement amongst the students and they are busy exploring and creating. We hope to be able to enter the National Robotics Competition in November here in Palmerston North. The Year 6, 7 & 8 students are also busy writing speeches about an inspirational person.

## Learning Conferences

A notice will come home on Monday next week for you to book in a Learning Conference day and time.
