

Awahou School

Ngā kaitiaki o tō tātou wāhi - Guardians of our place

Monday 10th August 2020, Term 3 - Week 4

Are you smarter than an Awahou student?! Quiz Night

Many of you would have received an invitation by now to our 'Are you smarter than an Awahou student? Quiz Night' run by our Maharahara students. They are continuing to raise funds for a 3D Printer, so gold coin donations on the night would be very much appreciated. Please return your RSVP as soon as possible so we can continue to plan this awesome event.

WHEN: Thursday 3rd September @ 5:30pm

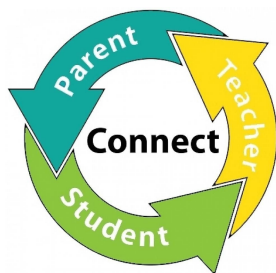

WHAT: A fun quiz run by Maharahara students for the parents and movie for the children

FOOD: We will provide burger patties, buns, sausages, bread and sauce. Please indicate whether you will bring a salad or slice/cake.

Learning Conferences

Thanks so much to everyone who came along to our Learning Chats. It was awesome to celebrate the achievements of your children with you!

Yummy Stickers

Please collect any yummy stickers and send them into school. We get some great sports gear at the end of the year if you have enough stickers.

Maharahara Camp 2020 & 2021

For our Senior Camp 2020, due to the rocky year we have had with COVID-19, we have decided to stay local. We will be supporting Highland Home this year by staying for two nights from Monday 9th Nov to Wednesday 11th Nov. We will participate in as many of the activities they have on offer as we can. We will also work with Sarah from Horizons Regional Council to learn more about our river water quality. This camp will cost \$100 per child.

For our Senior Camp 2021 we will head to YMCA Camp Raukawa for 3 nights from Monday 29th Nov to Thursday 2nd Dec. More information and details on costs will be provided early next year.

ADVENTURE & RETREAT

Students' Writing

It was really difficult to select work this week, as there are so many talented writers here at Awahou School! Here is the beginning of a Sci-Fi Action story by Jed Jackson. We can't wait to read the rest!

The Planet of a Thousand Eyes, by Jed Jackson

We arrived on the planet in a BI Model Interceptor. It was thought that the planet would be uninhabited because of the neon green nuclear waste. There was so much radiation that if we landed the ship it may fall apart. The landscape on the other hand was black and charred. Anything that touched the planet's surface was incinerated. We witnessed this first hand when we opened the blast door, one of the clones had fallen out and was burnt to a crisp on the planet's soil instantly. I was so shocked, I could not speak...

Upcoming events...
